

If you wanted to rest on a bed at our home, you would be sleeping on "royal bedding." After we bought the first mattress set from Royal Bedding, we purchased a set for each bedroom in our home. Then, we told our relatives and friends about them, and they ordered sets and had them shipped to their homes in other states. Why? Because we know they are experts at what they do, the quality of the materials is the best, the mattresses are manufactured on site in their factory (you can ~~watch~~ watch the set being made if you wish), you can trust Royal Bedding to treat you right, and they can handle special orders too.

Our family sleeps as well as any royal family. When it comes to mattress sets, our motto is "We rely on Royal Bedding for the 'REST' of our life!"
